Notes

The Graveyard Plan is based on an old plan created in 1986 and kept up to date with new burials since then. The plan has been cross-referenced to a historic survey of the visible inscriptions created by the Birmingham and Midland Society for Genealogy and Heraldry in 2005 and a survey of pre-1900 graves completed in 1981. Where possible, entries have also been cross-checked with the burial register. Obviously with the passage time many of the graves have become overgrown and inscriptions eroded and so the accuracy of the list of names and dates will inevitably contain some blanks and best guesses.

The new plan was created by tracing over the old one and then augmenting by a combination of plotting what is still visible on the ground, positioning using aerial photography, and a modest amount of educated guesswork. It will not be 100% accurate, but it is a good approximation.

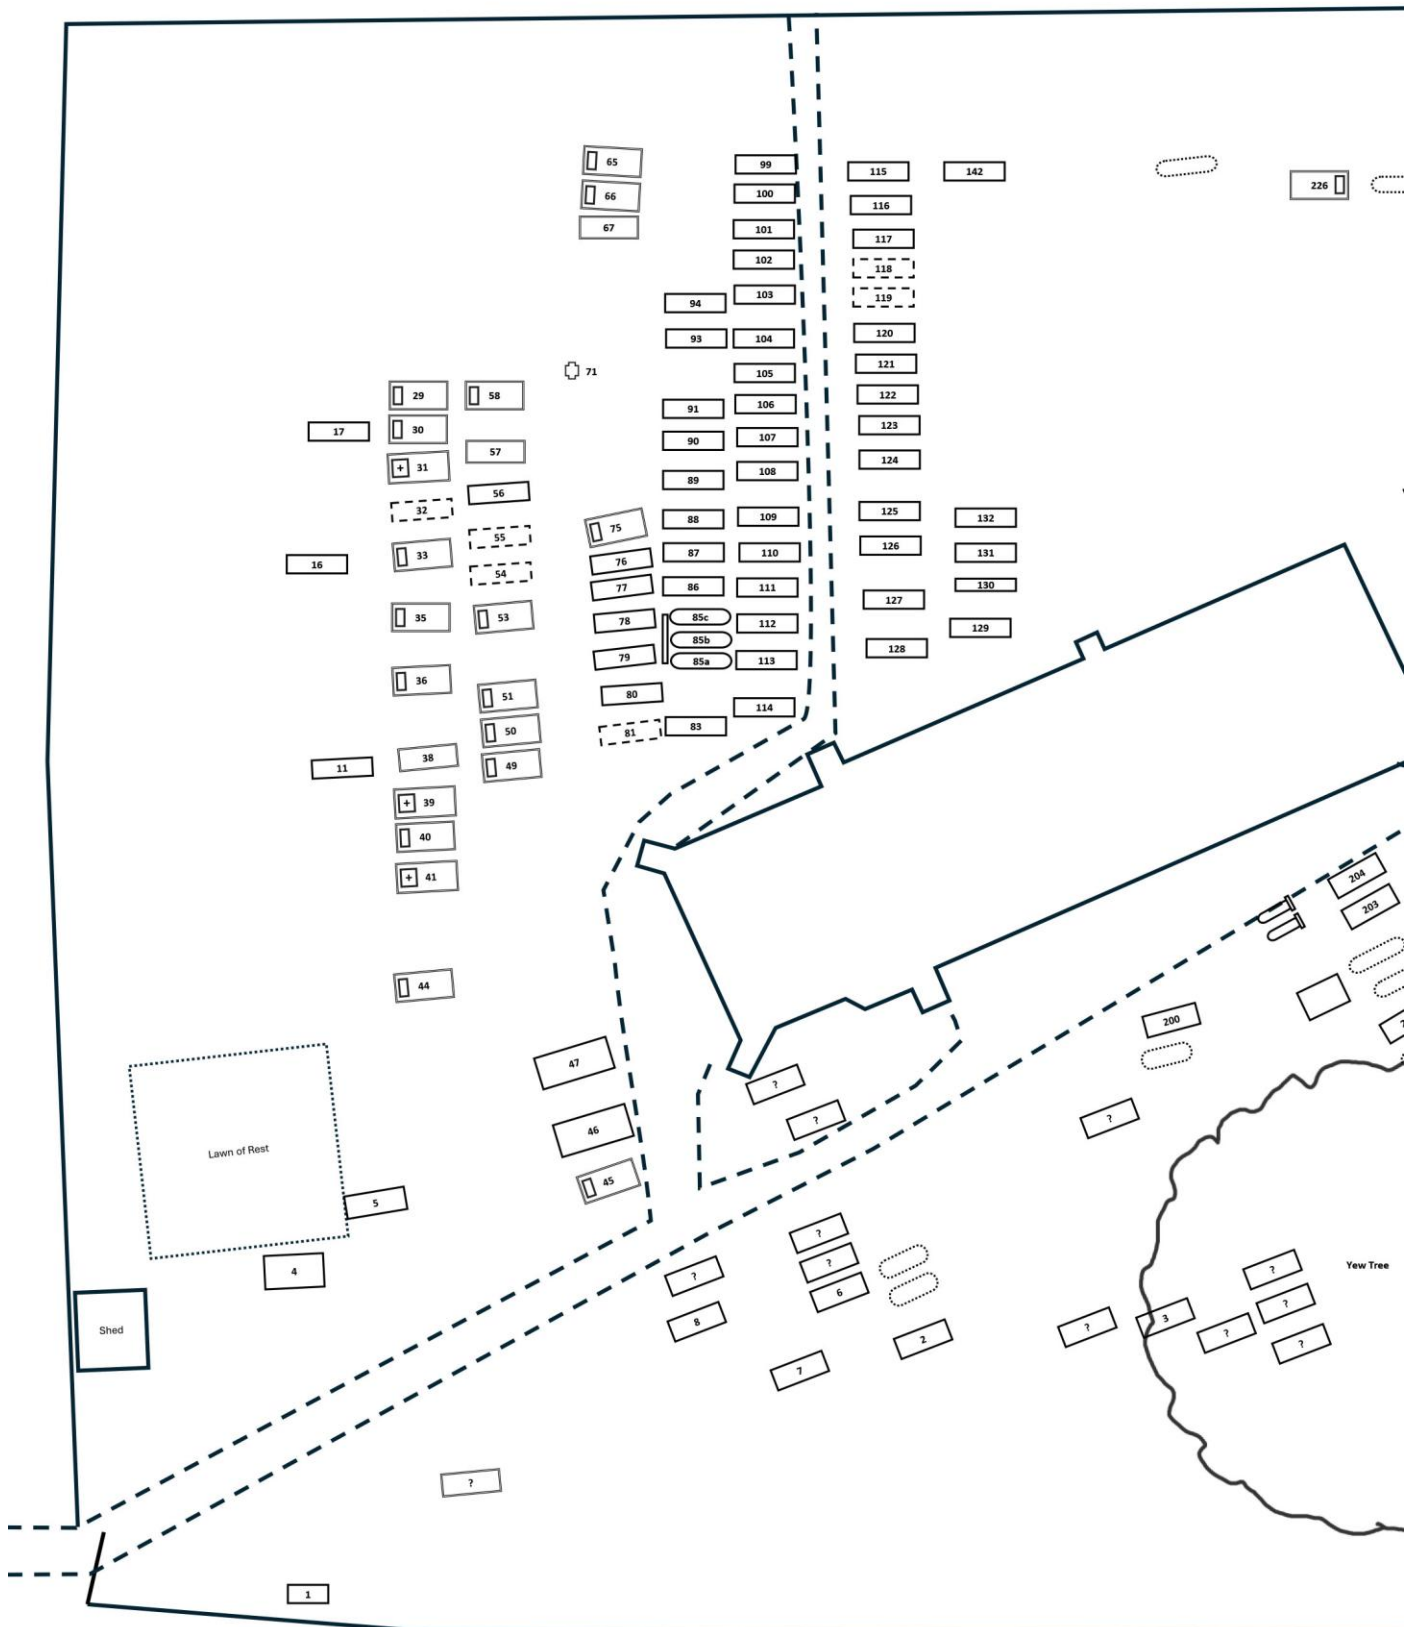

Many of the old graves shown on earlier surveys are no longer visible but their approximate position is shown to preserve the historical record. Unmarked graves are shown as dashed rectangle for a more recent unmarked grave or a simple elongated oval for a historic one. Graves with a border marker are shown as a rectangle, other shapes indicate those with headstones or crosses, and the old graves with table tombs.

This document and the plan are also published on our website at <http://rowingtonrecords.com/Church>

A full version of the plan is published there which can be zoomed to make it easier to read the numbers
