Numerical List of Graves	11

Notes

The Graveyard Plan was created from a plan of the churchyard dated 1969 which has been updated by hand with later burials. This has been cross-referenced to a historic survey of the visible inscriptions created by the Birmingham and Midland Society for Genealogy and Heraldry in 1994. Where possible, entries have also been cross-checked with the burial register. Obviously with the passage time many of the graves have become overgrown and inscriptions eroded and so the accuracy of the list of names and dates will inevitably contain some blanks and best guesses.

Note: Grave numbers prefixed by C, i.e. C1 to C36, refer to plaques in the west and north walls marking burials of ashes. They are numbered in a clockwise direction from the southern end of the west wall to the eastern end of the north wall

Grave numbers prefixed with P refer to stones in the path to the south of the church which were moved from the southern part of the graveyard in 1976 to make space for more burials there. Most are now unreadable so it is not clear which is which.

This document and the plan is also published on our website at <http://rowingtonrecords.com/Church>

A full version of the plan is published there which can be zoomed to make it easier to read the numbers
